

State Route 198 18th Avenue Median Barrier Kings County

Project Purpose:

The purpose of this project is to construct concrete median barrier within the median of State Route 198 between the City of Lemoore and the community of Armona. As per the 2003 median barrier monitoring program, this location meets the volume median width warrants for median barrier.

Project Description:

This project is located in Kings County on State Route 198, 18th Avenue Overcrossing to 14th Avenue Undercrossing Avenue. The project will construct concrete median barrier per the median barrier width guidelines.

Construction Cost: \$3.5 Million

Begin Construction: October 2006

End of Construction: June 2007

Funding Sources: State Highway Operation and Protection Program (SHOPP)

Contractor: W. Jaxon Baker, Inc.

Current Status: 95% complete
